EDUCATION

University of Science, VNU-HCM. 2024 – Present.
Bachelor of Science in Computer Science. **GPA: 8.5 / 10.0 (Top 5%).**
Relevant Coursework:

- **Mathematics**: Linear Algebra (9.2), Probability and Statistics (9.0), Calculus (8.8), Discrete Math (8.5).
- **Computer Science**: Data Structures (8.7), Object-Oriented Programming (8.5), Machine Learning (9.0).

RESEARCH INTERESTS

- **Multi-Agent Systems and Game-Theoretic AI**: Strategic decision-making, cooperation mechanisms, and LLM societies.
- **Trustworthy and Culture-Aware AI**: Continual learning, foundation model safety, and culture-aware alignment.

SELECTED PROJECTS

Market Trend Forecasting with LSTM and Attention Baselines. 10/2025 – 12/2025.
Course Project – Introduction to Machine Learning (Grade: 9.5/10). [GitHub Repository]

- Formulated a sequence-to-sequence prediction problem over 5 years of daily financial time-series data.
- Implemented linear baseline, standard LSTM, and single-head attention mechanisms from scratch using PyTorch.
- Enforced strict train/validation/test chronological splits to eliminate future information leakage. Observed a 14% MAE reduction over the moving average baseline.
- Identified failure cases during high-volatility shocks and proposed rolling window z-score re-normalization.

Reliable Vision Classification Under Controlled Image Perturbations. 08/2025 – 09/2025.
Independent Exploration Project. [GitHub Repository]

- Evaluated ResNet-50 and MobileNetV2 under simulated distribution shifts (Gaussian noise, contrast reduction, blur).
- Measured performance drops using top-1 accuracy and expected calibration error (ECE). Found MobileNetV2 suffered 2.1x higher calibration drift under contrast shifts.
- Implemented test-time augmentation (TTA) pipeline that recovered 6.4% top-1 accuracy without model retraining.

TECHNICAL SKILLS

- **Languages**: Python (proficient), C++, SQL, Bash.
- **Frameworks and Libraries**: PyTorch, NumPy, Pandas, Scikit-Learn, OpenCV, Matplotlib.
- **Developer Tools and Environment**: Git, GitHub, Linux/Ubuntu, LaTeX (Overleaf), Google Colab, VS Code.
- **English Proficiency**: Fluent in reading and synthesizing scientific papers (IELTS 7.0 / TOEIC 850 equivalent).

HONORS AND ACTIVITIES

- **HCMUS Academic Encouragement Scholarship**: Semester 1, 2025–2026.
- **Member**, HCMUS AI and Algorithm Club: Participated in weekly paper reading seminars.
